Re: Keith Shaw

Dear Jerry:

Keith Shaw served as the construction superintendent for the Children's Museum. He was selected following interviews with a number of applicants. We absolutely made the right choice! He did a fantastic job and we feel he saved the museum well over \$100,000 in costs.

He showed initiative and ingenuity and actually constructed a large number of the exhibits we have in the museum. We have wholeheartedly recommended him to organizations in other states who are considering creating a similar facility.

Upon our recommendation, he also constructed the animal shelter for the Seminole Humane Society in the city of Seminole. The size of the Seminole facility is the same size as the animal shelter in Shawnee. The Seminole facility was constructed for less than one-third the cost of the Shawnee facility because of the expertise of Keith Shaw.

Without reservation, I wholeheartedly recommend Keith Shaw for your consideration concerning the building of the new Methodist Church.

Sincerely,

Melvin Moran
